

## SYSTEM SELECTION SERVICES

### Empower your nonprofit with the right technology

At NPact, we specialize in helping nonprofits navigate the complex technology landscape to **select systems that align with their mission, enhance efficiency, and drive impact.**

Our tailored approach ensures you get the best tools for your technology stack.

**Save time and resources** with expert support, tailored to your organization

**Reduce the risks** by choosing the right technology with our evaluation process

**Make confident technology investments** backed by data-driven insights and advice

### Flexible options to meet you where you are:

#### CONSULTATION

Evaluation of current systems and challenges to fully understand your goals and needs

#### REQUIREMENTS GATHERING

Key stakeholder interviews to determine and prioritize software requirements

#### MARKET RESEARCH

Vendor evaluation and shortlisting based on features, pricing, and scalability

#### DEMO AND EVALUATION

Targeted vendor demos and product evaluations driven by your determined needs

#### COST-BENEFIT ANALYSIS

Assessment of costs, ROI, and long-term value reviewed throughout the process

#### Book a call with NPact
